

## THE LIBERIAN REGISTRY

DISCOVER THE  
WORLD'S LEADING  
SHIP REGISTRY

ESTABLISHED IN

**1948**

**MLC SERVICES**

# MLC 2006 *Verification & Certification*

**T**he Liberian Registry is committed to providing shipowners convenient, efficient and cost-effective certification services. In response to its overwhelming success with harmonizing the overlapping requirements for compliance with both the International Safety Management (ISM) and International Ship & Port Facility Security (ISPS) Codes, the Registry has expanded its service capabilities to include inspection and certification services for compliance with the International Maritime Labour Convention (MLC, 2006).

*The only registry to provide MLC, 2006 Ship Verification and Certification Services through its professionally trained global network of Maritime Labour Inspectors.*

## VESSEL CERTIFICATION

The Liberian Registry has professionally trained its own worldwide network of maritime labour inspectors to carry out ship verification and certification as mandated by MLC, 2006. These same lead auditors also perform a large percentage of Liberia's unique "Harmonized Audits" which includes the Annual Flag State Inspection, ISM and ISPS verifications for the Liberian fleet, providing owners and operators with professional and cost-effective service.

## SEAFARER RECRUITMENT & PLACEMENT CERTIFICATION

The Registry has also trained its own worldwide network of maritime labour inspectors to conduct certification inspections of companies providing seafarer recruitment and placement services that are not certified by the seafarers national government.

## MLC BLOCK FEE AGREEMENTS

The Administration has devised a block fee concept for MLC verification inspections and certifications. Owners and operators have the option to pay individually for specific MLC services or they can enter into a MLC block fee agreement (BFA) which will result in significant financial savings.

## SERVICES INCLUDED IN BLOCK FEE

- DMLC Review, Approval and Unlimited Amendments
- Initial and Intermediate MLC Inspections & Certification
- Annual Support and PSC Protection

## SPECIAL COMPLIANCE SERVICES

Special compliance services are available to conduct gap analysis to assist shipowners determine the status of compliance of their vessels and implementation of MLC regulations.

## LIBERIAN FLEET MLC COMPLIANCE

- 100% of Liberian fleet is MLC—Compliant
- 60% of Liberian fleet — MLC certified by Liberia's Global Network Inspectors
