

Harmonized Audit & Inspection Program

- Specially trained auditors and inspectors
- Save time, money, and personnel resources
- Compliant with ISM, ISPS, and MLC

ALL FLAGS ARE NOT ALIKE

One Auditor, One Day

The Liberian Registry provides harmonized verification and certification for compliance with the International Safety Management (ISM) code, the International Ship and Port Facility Security (ISPS) code, and the Maritime Labour Convention (MLC). The Registry has a global network of over 550 specially trained auditors and inspectors.

By reducing the number of auditor and inspector visits required, Liberia's harmonized initiative saves time, money, and personnel resources. Due to the overlapping requirements of the MLC, ISM, and ISPS Codes and the Annual Safety Inspection (ASI), all reviews can be combined and conducted during a single ship visit by our specially trained auditors/inspectors.

Combined Block Fee Agreement (C-BFA)

Shipowners and ship managers may enter into combined block fee agreements (C-BFA) with competitive pricing, which will cover verification and certification for compliance with the Maritime Labour Convention (MLC) 2006 and the ISM and ISPS Codes.

Harmonized MLC/ISM/ISPS/ASI Combines the Review and Attendance of:

- | | | |
|-----------------------------------|-----------------|------------------|
| • Designated ship and shore staff | • Checklists | • Internal Audit |
| • Drills & training | • Exercises | • External Audit |
| • Documented procedures | • Recordkeeping | • Certification |
