Purpose	3
1. Liberian Administration's Legislation, Amendments and Guidance	3
2. System of Inspection	3
3. Ships and Premises Inspected	4
4. Seafarers subject to Liberian Administration's Legislation	6
5. Violations of Legislation, Penalties Imposed and Cases of detention of Ships	6
6. Reported Occupational Injuries and Diseases affecting Seafarers	7
7. Conclusion	9

## **Purpose**

This report is prepared in accordance with Standard A5.1.4.13, taking into consideration the guidance provided in B5.1.4.10 of the Maritime Labour Convention, 2006 (MLC) Code. This report covers the period from 1 January 2015 to 31 December 2015. The statistics contained in this report take into account only ships to which MLC applies and to all seafarers on board.

### **1. Liberian Administration’s Legislation, Amendments and Guidance**

No new laws or regulations have come into effect in 2015.

### **2. Liberian Administration’s System of Inspection**

For Liberian-registered ships to which MLC applies, the Liberian Administration is the ‘Competent Authority’ as defined in Article II/1(a) of MLC and is responsible for implementing its obligations under Regulation 5.1.4 of MLC.

The Liberian Administration has trained over 300 Liberian auditors to serve as Liberian Maritime Labour Inspectors (LMLI) in order to provide effective and efficient inspection and verification of the working and living conditions on board Liberian flag ships and issue Maritime Labour Certificates. These inspectors have also been provided with specialized training by the Mission to Seafarers in addressing seafarer’s welfare concerns and complaint resolution.

The Administration after taking into account the requirements for authorization of recognized organizations in Standard A5.1.2.1, has also authorized RO’s to conduct maritime labour verification inspections and certification of Liberian flag ships. A shipowner can choose whether to have the on board verification inspections and certification conducted by the Administration or an authorized RO. The list of LMLI’s can be found on Liberian Registry website [www.liscr.com](http://www.liscr.com) under the “Maritime” tab then click on MLC, 2006 and “List of MLC Inspector’s”. The list of authorized RO’s can be found on LISCRC website, [www.liscr.com](http://www.liscr.com) under the “Maritime” tab then click on “MLC, 2006” and “List of RO’s”.

The performance of the LMLI’s is monitored by a thorough review of the inspection reports that are submitted after the inspection and if necessary, additional training and oversight through the Administration’s ‘Audit the Auditor’ program.

The performance of the authorized RO’s is monitored through regular audits of the RO’s in accordance with the Code for recognized organizations (RO Code).

The Liberia Administration implements a computerized system for scheduling inspections of its ships, filing the inspection reports, monitoring the deficiencies and evidence of implementation of the corrective action plan within the agreed timeline.

### **3. Ships and Premises Inspected**

**3.1** The following is a record of inspections for certification and to ensure continuing compliance on Liberian-registered ships, during the period of this report.

Number of ships inspected by Liberian Maritime Labour Inspectors	759
Number of ships inspected by authorized RO's	270
Total number of ships inspected	1029
Number of ships with no deficiencies	861
Number of ships with deficiencies	168
Total number of deficiencies	335

The total number of deficiencies noted during these inspections is broken down by category as follows:

Regulation 1.1 – Minimum Age	3
Regulation 1.2 – Medical Certificates	12
Regulation 1.3 – Training and Qualifications	7
Regulation 1.4 – Seafarers recruitment and placement services	15
Regulation 2.1 – Seafarers employment agreements	57
Regulation 2.2 – Payment of wages	21
Regulation 2.3 – Hours of work and hours of rest	36
Regulation 2.5 – Repatriation	7
Regulation 2.7 – Manning levels	2
Regulation 3.1 – Accommodation and recreational facilities	36
Regulation 3.2 – Food and catering	55
Regulation 4.1 – Medical care on board ship and ashore	16
Regulation 4.3 – Health and safety protection and accident prevention	43
Regulation 5.1.5 – On-board complaint handling procedures	25

The following is a description of the deficiencies with high numbers:

- a. **Standard A1.2 – Medical Certificate**
  - Medical certificates not signed or incorrectly entered by medical practitioner
  
- b. **Standard A2.1 – Seafarers employment agreements (SEA's)**
  - Seafarers not provided signed original of SEA
  - SEA does not contain the name and address of the shipowner under MLC
  - CBA not available on board for seafarers to review or not consistent with SEA
  
- c. **Standard A2.2 – Payment of wages**
  - No monthly account of wages provided
  - Wages not paid regularly at monthly intervals

- d. **Standard A2.3 – Hours of work and hours of rest**
  - Record of rest hours not kept or not consistent with ships log or overtime records
  - Minimum hours of rest not provided in any 24 hours or 7 days period and no compensatory rest provided for seafarers on call
  - Table of working arrangements not posted
  - Seafarers not provided with copy of their individual work/rest hours
  
- e. **Standard A3.1– Accommodation and recreational facilities**
  - Poor housekeeping
  - Sanitary facilities not operational
  - Flooring and cabin equipment damaged
  - Weekly inspections not carried out or records not kept
  
- f. **Standard A3.2 – Food, water and catering**
  - Storage of food not as required
  - Insufficient food for the intended voyage
  
- g. **Standard A4.1 – Medical care on board ship and ashore**
  - Medicines on board not as per required scale (Medical Guide for Ships)
  
- h. **Standard A4.3– Health and safety protection and accident prevention**
  - No risk assessment for critical operations
  - No functioning safety committee on board
  - No evidence of reporting and investigation
  - Unsafe working conditions
  
- i. **Standard A5.1.5– On-board complaint procedures**
  - Seafarers not provided with a copy of on-board complaint procedures
  - Seafarers not familiar with the procedure
  - Required contact information of Administration and Shipowner not entered

**3.2** The following is a record of Certificates issued for compliance with requirements of Standard A1.4 of MLC during the period of this report and upon request of Seafarer Recruitment and Placement Services (SRPS) located in States that have not signed MLC, 2006.

Total number of SRPS audited by Liberia	2
Number of SRPS with no non-conformances	2

Note: A total of 28 SRPS were audited and issued Authorization Letters by the Liberian Administration during the period of this report.

Certificates were issued after the correction of the non-conformances was verified by the Liberian Administration.

## **4. Seafarers subject to Liberian Administration's Legislation**

### **4.1 Seafarer**

A seafarer is defined as any person who is employed or engaged or works in any capacity on board a ship to which this convention applies. Those categories of persons which are not considered seafarers for the purpose of MLC, 2006 are included in Marine Notice MLC-001/SEAFARERS.

During the period of this report, there were a total of 260,120 seafarers holding valid Liberian Endorsement Certificates and/or Special Qualification Certificates.

## **5. Violations of Legislation, Penalties Imposed and Cases of detention of Ships**

### **5.1 Violation of legislation and penalties imposed**

There were no violation of legislation and penalties imposed during the period of this report.

### **5.2 Detention of Liberian registered ships**

During the period of this report, sixteen (16) Liberian-registered ships were detained with serious deficiencies related to:

#### **a. Standard A2.2 – Payment of wages**

- Wages not paid regularly at monthly intervals

#### **b. Standard A2.3 – Hours of work and hours of rest**

- Record of rest hours not kept or not consistent with ships log or overtime records

#### **j. Standard A3.2 – Food, water and catering**

- Insufficient food and drinking water for the intended voyage

### 5.3 Complaints / Disputes received from seafarers on Liberian-registered ships

The Liberian Administration is committed to ensuring that Seafarers who serve on Liberian registered ships have decent working and living conditions, a safe and secure workplace and fair employment.

Seafarers are encouraged to utilize the ship's Onboard Complaint Procedures in order to resolve complaints at the lowest level possible in accordance with MLC 2006. However, in the event a complaint is unable to be resolved onboard, the Liberian Administration provides an online complaint form through the link below and will assist Seafarers with all true and valid complaints.

<b>Total</b>	<b>69</b>	<b>50</b>	<b>-</b>	<b>3</b>	<b>-</b>	<b>1</b>	<b>-</b>	<b>15</b>	<b>1</b>	<b>50</b>	<b>19</b>

### 6. Reported Occupational Injuries and Diseases affecting Seafarers

The owner or operator of a Liberian-registered ship is required by law to report in detail any loss of life or injury causing any person(s) to remain incapacitated for a period in excess of 72 hours. The form RLM 109-1 is to be used for this purpose.

The tables below indicate the seafarer deaths and injuries on board Liberian-registered ships.

## 6.1 Task or activity being conducted leading to an injury or death

Description	Number	
	Death	Injury
Working on pipelines or equipment containing hot gases / liquids	0	5
Working on chemicals	0	1
Working on electrical equipment	0	2
Working on auxiliary equipment (non-electrical)	1	6
Working on/lighting Boiler or Main Engine	1	9
Climbing up / down	0	10
Walking on same level	0	8
Carrying / lifting / lowering	0	7
De-rusting	0	5
Painting	0	1
Overhauling machinery	1	24
Mooring/anchoring/line handling operations	1	14
Inspection / Working inside Hold / Tank	4	10
Securing cargo	0	3
Working Aloft (Relating to Rigging of a vessel)	0	1
Working Aloft (Other)	1	0
Working over side	1	0
Hot work / welding	1	0
Working in galley	1	4
Bunkering	0	0
Operating Hatch Covers	1	3
Cargo operations / preparation	5	11
Embarking/Disembarking vessel	0	0
Transfer of person by boat / transfer basket	0	1
Securing Gangway	1	1
Ashore (Recreational)	5	0
Ashore (Other)	1	1
Watchkeeping	0	6
Responding to vessel emergency/casualty (Not fire)	0	1
Fire fighting	0	0
Launching/Lowering/Working with Survival Craft	0	2
No Activity Being Conducted	40	31
Cleaning/Taking Inventory	0	0
Drill/Inspection	0	2
<b>Total</b>	<b>65</b>	<b>169</b>

## 6.2 Type of incident leading to death or injury

Description	Number	
	Death	Injury
Cardiac arrest	23	0
Natural – Not specified	4	0
Stroke	1	0
Illness - Contagious	0	0
Illness – Not Contagious	7	19
Struck / hit by falling / moving / flying objects	3	42
Criminal Acts/Physical/Crew Conflict	5	5
Suicide	3	0
Drowned	1	0
Contact with electricity / electric shocks	0	1
Chemical exposure / vapor inhalation: Contact with or swallowing of toxic or corrosive substances	1	3
Suffocation/Asphyxiation	1	1
Missing from ship	8	0
Heavy Weather	0	8
Over exertion: strain / sprain	0	3
Over exposure to cold	0	0
Over exposure to heat	0	0
Lack of oxygen	0	0
Cut from knife or sharp object	0	2
Caught in or between objects	2	25
Contact with steam or hot gases	0	4
Fire/Explosion/Blasts/Burns	0	0
Contact with hot liquid or other heat source	0	8
Transfer of person by boat/transfer basket	0	0
Jump/fall overboard	3	1
Slip/fall same level	0	20
Slip fall to lower level	3	25
Unknown	0	2
<b>Total</b>	<b>65</b>	<b>169</b>

Shipowners conducting risk evaluation in relation to management of occupational safety and health shall refer to appropriate statistical information from their ships and to the statistics of injuries and deaths provided in this report.

It should be noted that thirty-five (35) deaths on board were related to cardiac arrest, illness on board, stroke and unspecified causes. Shipowners should be aware of the role of the medical examination in the enhancement of safety and health at sea and in assessing the ability of seafarers to perform their routine and emergency duties and to live on board.

## **7. Conclusion**

1. The report has been prepared to provide an accurate account of the implementation of MLC on board Liberian-registered ships from 1 January 2015 through 31 December 2015.
2. The average number of deficiencies is about 0.3 per ship. The detention rate is less than 0.5%. This can be attributed to the guidance provided by the Liberian Administration to shipowners in developing their procedures for compliance and ensuring that complaints received alleging breaches of the Convention are resolved effectively and expeditiously.
4. It is the aim of the Liberian Administration to reduce detentions in port under MLC to zero (0) in the year 2017. In that regard the Administration is continuously working with shipowners to ensure that their ships are always in compliance through regular monitoring during shipboard attendance and complaints resolution.
